Use these columns to search for -> **r**	Use these columns to search for -> **f**
1. Edge IP address	1. Edge IP address
2. **r** line	2. **f** line
3. Start Time	3. Start time
4. SSL overhead time	4. SSL overhead time
5. Request end time (header reading time)	5. Request end time
6. Turnaround time	6. DNS lookup time
7. Object size	7. Turnaround time
8. Transfer time	8. Transfer time
9. Content bytes served (content-length)	9. Content bytes received
10. Total bytes served	10. Total bytes received
11. Client IP	11. Forward IP
12. HTTP method	12. Client IP
13. ARL	13. HTTP method
14. HTTP status code	14. ARL
15. Error	15. HTTP status code
16. Object status information	16. Content-Type
17. Content-Type	17. IMS
18. Host header	18. SSL
19. Cookie	19. Object Status
20. Referrer	20. Request number
21. User-agent	21. Edgescape
22. IMS	23. TCP statistics unique ID
23. SSL	24. Forward hostname
24. Request Number	25. Ghost Request header size
29. TCP statistics unique ID	26. Ghost request size
32. Request id	27. SSL overhead bytes
33. Serial number and map	28. Forward ARL
34. Request byte-range	29. Request id
35. Uncompressed length	30. Error line message
37. DCA/Edge Computing Information	

38. X-Forwarded-For header contents	
40. Object max-age	
49. Object Status 2	
53. Object Status 3	
57. Client request body size	
60. True client IP	
62. Web Application Firewall Info	
69. DNS Time Taken for Multi-Domain config	
70. Config hostname for Multi-Domain config
